

Viewing Details of Threats on the Allow List

<https://campus.barracuda.com/doc/104371509/>

When you click a threat that you have added to the **Allow List**, you can see the following details of the threat:

- The time and date of the last update
- The account the threat was launched against
- The file name of the threat
- The file path where the threat was found
- The threat's hash
- A description of the threat

To view details of a threat on the Allow List

1. In **Barracuda XDR Dashboard**, click **Administration > Allow List**.
2. In the table, click the row of the threat you want to remove from an **Allow List**.
The **Item Details** dialog box opens.

The screenshot shows a dialog box titled "Item Details" with a "Remove from Allow List" button in the top right corner. The dialog box contains a table with the following information:
