
August 2023 Barracuda MSP App Release Notes

<https://campus.barracuda.com/doc/112167596/>

This article includes the following topics.

- Release Versions
- Upgrading to this Release
- Updates
- Fixes

Release Versions

This release includes the following versions.

- August 2023
- Backend-2023.9
- MSPUI-2023.6
- Agent-2023.5

Upgrading to this Release

The upgrade process for this release is completely automated. There is no action required on your part to upgrade to the latest release.

Updates

- The MSP App is now Generally Available and out of Beta.
- Admin, Finance, Tech, and Tech (Cannot Delete) logins now show whether they have MFA enabled via BCC and whether they have LDAP enabled.
- For Billing Aggregators, they can now view the O365 Connector status of SMBs with active serials.
- For Billing Aggregators, we created a new login type called Aggregator Finance that can export UBB data, pay/email invoices, and manage credit cards.

Fixes

This release includes the following fix:

Fixed an issue where SMBs were not being properly linked to ConnectWise companies using the MSP App.
