https://campus.barracuda.com/doc/112167754/

This article includes the following topics.

- Release Versions
- Upgrading to this Release
- Updates
- Fixes

Release Versions

This release includes the following versions.

- Backend-2023.8
- MSPUI-2023.5

Upgrading to this Release

The upgrade process for this release is completely automated. There is no action required on your part to upgrade to the latest release.

Updates

This release includes the following updates:

- Added Live Chat with Support access.
- Added new Partner Resources page.
- Added Usage-Based Billing Data Export feature that includes a breakdown of committed user counts versus the actual usage by product and SMB. The Billing Data Export is available to both MSPs and Billing Aggregators.

Fixes

No external bug fixes included in this release.
