

Updated Login Experience for Barracuda Cloud Control

<https://campus.barracuda.com/doc/15748/>

A new login experience is coming soon to Barracuda Cloud Control! On **August 6, 2024**, Barracuda Networks is launching a new user login experience for Barracuda Cloud Control which includes re-imagined login flows, a fresh design, and improved security.

The screenshot shows the new login interface. At the top is the Barracuda logo and the word "Welcome". Below that is the instruction "Sign in to Barracuda Networks to continue to Cloud Control". There is a text input field for "Email address*" with a blue border. Below the field is a blue "Continue" button. Underneath the button is the text "Don't have an account? [Sign up](#)". A horizontal line with "OR" in the center separates this from a "Sign in with Microsoft" button, which features the Microsoft logo.

What's New?

- A more secure experience with improved monitoring and safeguards.
- Improved Single sign-on with Microsoft Entra ID (OAuth).
- A fresh new look and feel, with an intuitive, lightweight, and responsive design. As we continue this project over the next 12 months, we will be streamlining your experience across our platforms to this login experience.

Enhanced Security

Barracuda Networks has placed extra measures within the authentication experience. We can now proactively monitor for credentials that exist on the dark web and inform a user if they are at risk. Should this happen, Barracuda Networks will inform the user and send a request to update their password. We have also improved our password complexity policies earlier this year, which can be

reviewed here.

The first time you log in using the new system, we recommend having your account information handy to make this process as smooth as possible. Once you've successfully logged in, you'll find the familiar user flow and access to all the available services.

If you have any questions about your login experience, contact [Barracuda Networks Technical Support](#).

For a list of frequently asked questions (FAQs), see [Frequently Asked Questions \(FAQ\)](#).
