## Getting Started

<https://campus.barracuda.com/doc/19333356/>

You can deploy the Barracuda Load Balancer ADC either as a hardware appliance or as a virtual appliance on supported hypervisors.

### Deploy the Barracuda Load Balancer ADC Vx on a Supported Hypervisor

---

To install the Barracuda Load Balancer ADC Vx virtual appliance on a supported hypervisor, start with [Virtual Deployment](#).

### Deploy the Barracuda Load Balancer ADC Hardware Appliance

---

The following instructions are an expanded version of the [Barracuda Load Balancer ADC Quick Start Guide](#) that is shipped with every Barracuda Load Balancer ADC. If you have already completed the steps in the Quick Start Guide to install and activate your appliance, go to [Step 5 - How to Configure Your Network and Services](#). Otherwise, complete the following steps:
