

Task Messages

<https://campus.barracuda.com/doc/20643850/>

Use the following steps to view running and queued tasks in the Barracuda Backup *local web interface*:

1. Open a web browser, and enter the Barracuda Backup Server IP address to log in to the Barracuda Backup *local web interface*.
2. Go to the **System > Device Information** page. In the **Task Manager** section, **Running Tasks** and **Queued Tasks** display:

Task Manager

Running Tasks:

Backup: 8:00pm EDT backup from "Default Backup Schedule (Hyper-V 2012)" (0%)	<div></div>	Details
Backup: 8:00pm EDT backup from "Default Backup Schedule (Mac Agent)" (0%)	<div></div>	Details
Backup: 9:00pm EDT backup from "Exchange 2010 Backups" (25%)	<div></div>	Details
Backup: 6:00am EDT backup from "VMware Backups" (8.33%)	<div></div>	Details
NetClient: Uploading file part data to the cloud	<div></div>	
NetClient: Uploading file part data to the cloud	<div></div>	
NetClient: Uploading file part data to the cloud	<div></div>	
NetClient: Uploading file part data to the cloud	<div></div>	
NetClient: Uploading health data to the cloud	<div></div>	

These tasks are running right now.

Queued Tasks: No tasks.

These tasks are waiting to begin running.

3. Click **Details** to toggle additional information on or off.

Processes and Services

The following table describes the processes and services that display on the **System** page:

Backup	Daemon responsible for performing backup functions.
Restore	Daemon responsible for performing restore functions.
Netclient	Process used to replicate data to another location.
Netserver	Process that receives data from netclient for box-to-box replication.
Purger	Deletes files that fall outside of the retention policy, and shares removed from the configuration.
