
About Restoring Files and Folders

<https://campus.barracuda.com/doc/22390/>

You can restore Files and Folders by:

- Folder Hierarchy
- Daily Snapshots
- Backup Sets

Folder Hierarchy

Restoring by Folder Hierarchy lets you restore files and folders from the hierarchy that you originally backed up. Each file may have been backed up multiple times and therefore have multiple revisions. By default, the most recent revision is selected, but you can choose any revision that is displayed.

Daily Snapshots

Restoring by Daily Snapshots lets you restore a version of files and folders from a specific date. Seven of the most recent daily snapshots are available for restore. You can only restore from one daily snapshot at a time.

[Restoring Files and Folders by Daily Snapshots.](#)

If you want to restore from a snapshot older than one week, you will need to do the restore from the software. See [Restoring From a Daily Snapshot Older Than a Week](#).

Backup Sets

Restoring by Backup Sets lets you restore files and folders organized by the backup sets you have created.
