Integrating the Microsoft® Hyper-V® Service Module

https://campus.barracuda.com/doc/28773/

A service module is an enhanced policy module that includes dashboards, monitors, reports and scripts. Service modules enable Barracuda RMM to integrate with different software vendors. The service module covered in this chapter is for Microsoft® Hyper-V®.

This section provides detailed information about the following topics:

- About the Microsoft Hyper-V Service Module
- User Requirements and Setup
- Understanding the Terminology
- Viewing the Hyper-V Dashboards
- Viewing Hyper-V Data
- Identifying and Addressing Issues
- Performing Guest State Management
- Managing Hyper-V Snapshots
- Managing Hyper-V Service Module Reports
- Accessing Hyper-V Support Resources

You can find more information about Microsoft Hyper-V at the following URL:
http://www.microsoft.com
