How to Update Intrusion Prevention Rules Using Energize Updates

https://campus.barracuda.com/doc/3538959/

The **ADVANCED > Energize Updates** page allows you to manually update the Intrusion Prevention System rules, as well as change the interval at which the Barracuda Load Balancer checks for updates.

We recommend that the **Automatically Update** setting be set to **Hourly** so your Barracuda Load Balancer receives the latest rules as soon as new threats are identified by Barracuda Central.
