
Overview

<https://campus.barracuda.com/doc/3539007/>

Designed to help organizations achieve their availability objectives, the Barracuda Load Balancer integrates IP load balancing and network intrusion prevention into an affordable and easy to use appliance. The Barracuda Load Balancer provides comprehensive failover capabilities in case of server failure, distribution of traffic across multiple servers, and integrated protection from network intrusions.

The **Barracuda Load Balancer ADC** is another Barracuda Networks product that is ideal for organizations looking for a high-performance, yet cost-effective application delivery and security solution. For technical information, see [Overview](#) in the Barracuda TechLibrary, or check out the [Barracuda website](#) for marketing and demo information.

Where to Start

Download the [Barracuda Load Balancer Quick Start Guide](#).
