

User Role

<https://campus.barracuda.com/doc/3866662/>

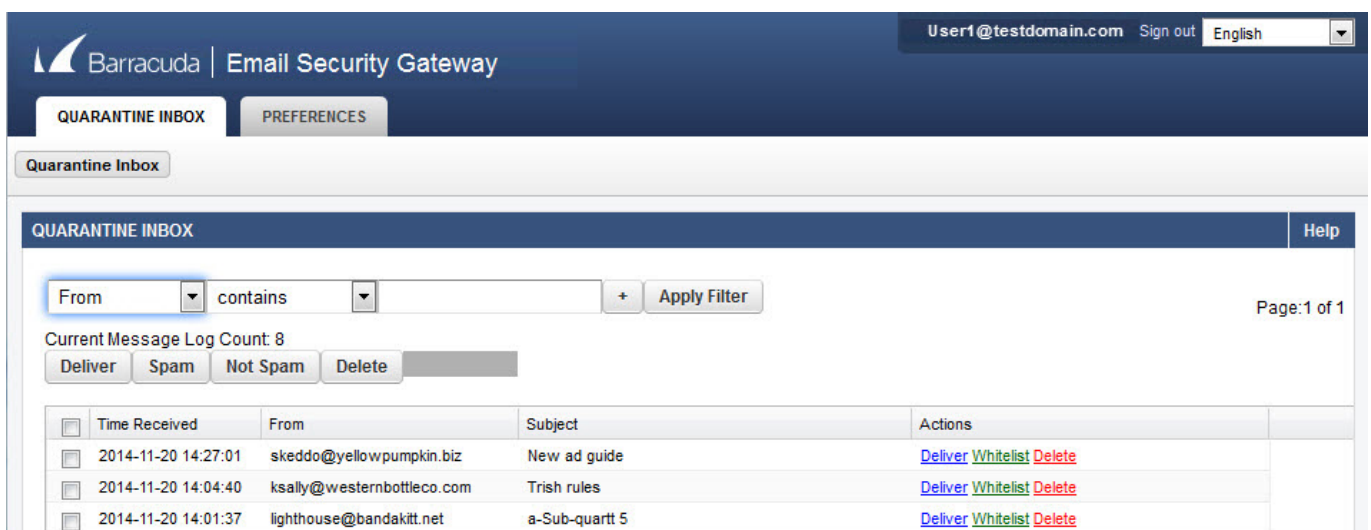

This is the default role assigned to newly created accounts on the Barracuda Email Security Gateway, and only provides the account holder with a view of their quarantine inbox and some account preference settings, depending on what has been enabled for their account. For details about managing the quarantine inbox, please see [Barracuda Email Security Gateway User 's Guide 6 and Above](#).

User role permissions may include:

- Modify individual settings for quarantine, spam tag and block levels.
- Management of quarantine inbox - mark as Spam/Not Spam, deliver, add to Allow List, or delete quarantined messages.
- Change password (if Single Sign-On authentication is not configured).
- Create Allow Lists and Block Lists for email addresses and domains.
- Manage a personal Bayesian database.

If granted the permission, the User role can disable quarantine for their account such that all messages quarantined for that account holder's email address(es) by the Barracuda Email Security Gateway will be delivered to their regular email inbox. The User account holder will see the following page upon login, with option to set preferences (see [Assigning Features to User Accounts](#)) and manage their quarantine inbox of messages. See also [Using Per-user Quarantine](#).

Figure 1: User role view of web interface, displaying the Quarantine inbox.

The screenshot displays the Barracuda Email Security Gateway web interface for a user role. The top navigation bar includes the Barracuda logo, the text "Email Security Gateway", and a user profile section for "User1@testdomain.com" with a "Sign out" link and a language dropdown set to "English". Below the navigation bar, there are two tabs: "QUARANTINE INBOX" (selected) and "PREFERENCES". The main content area is titled "Quarantine Inbox" and features a search filter bar with a "From" dropdown, a "contains" dropdown, and an "Apply Filter" button. Below the filter bar, it shows "Current Message Log Count: 8" and buttons for "Deliver", "Spam", "Not Spam", and "Delete". A table lists the quarantined messages with columns for "Time Received", "From", "Subject", and "Actions".

Time Received	From	Subject	Actions
2014-11-20 14:27:01	skeddo@yellowpumpkin.biz	New ad guide	Deliver Whitelist Delete
2014-11-20 14:04:40	ksally@westernbottleco.com	Trish rules	Deliver Whitelist Delete
2014-11-20 14:01:37	lighthouse@bandakitt.net	a-Sub-quartt 5	Deliver Whitelist Delete
