Rear Panel Ports and Connectors Models 100 and 200

The following figure illustrates the Barracuda Email Security Gateway rear panel ports and connectors for models 100 and 200:

The following table describes the Barracuda Email Security Gateway models 100 and 200:

Port/Connector Name	Details
Power Supply	Power supply input.
Mouse Port	<i>Optional.</i> Mouse port.
Keyboard Port	<i>Optional.</i> PS2 keyboard connection.
VGA Port	<i>Recommended.</i> Video graphics array (VGA) monitor connection.
HDMI Port	<i>Optional.</i> HDMI video connection.
USB Ports (4)	<i>Optional.</i> USB device connection.
Network Port	Network connection.
Microphone	<i>Optional.</i> Microphone line-in connection.
Line In/Line Out Jack	<i>Optional.</i> Audio input/output connections.

Rear Panel Ports and Connectors Model 300

The following figure illustrates the Barracuda Email Security Gateway rear panel ports and connectors for model 300:

Rear Panel Ports and Connectors Model 300

The following table describes the Barracuda Email Security Gateway model 300:

Port/Connector Name	Details
Power Supply	Power supply input.
Mouse Port	<i>Optional.</i> Mouse port.
Keyboard Port	<i>Optional.</i> PS2 keyboard connection.
USB Ports (4)	<i>Optional.</i> USB device connection.
Dual Link DVI-D Port	<i>Optional.</i> Digital monitor connection.
VGA Port	<i>Recommended.</i> Video graphics array (VGA) monitor connection.
Network Port	Network connection.

Rear Panel Ports and Connectors Model 400

The following figure illustrates the Barracuda Email Security Gateway rear panel ports and connectors for model 400:

The following table describes the Barracuda Email Security Gateway model 400:

Port/Connector Name	Details
Power Supply	Power supply input.
Fan	Fan.
Mouse Port	<i>Optional.</i> Mouse port.
Keyboard Port	<i>Optional.</i> PS2 keyboard connection.

USB Ports (4)	<i>Optional.</i> USB device connection.
Dual Link DVI-D Port	<i>Optional .</i> Digital monitor connection.
VGA Port	<i>Recommended.</i> Video graphics array (VGA) monitor connection.
Network Port	Network connection.

Barracuda Email Security Gateway Model 600

Front Panel Model 600

The following figure illustrates the Barracuda Email Security Gateway power and disk activity indicator lights for model 600:

The following table describes the Barracuda Email Security Gateway power and disk activity indicator lights for model 600:

Component Name	Description
Power Button	Push to power on the Barracuda Email Security Gateway, tap to safely reset the Barracuda Email Security Gateway.
Reset Button	Push for 5 seconds to reset the Barracuda Email Security Gateway.
Power Indicator	Displays a solid green when the system is powered on.
Disk Activity	Displays a solid green light and blinks during disk activity.

Rear Panel Port and Connectors Model 600

The following figure illustrates the Barracuda Email Security Gateway rear panel ports and connectors for model 600:

The following table describes the Barracuda Email Security Gateway model 600:

Port/Connector Name	Details
Power Supply	Power supply input.
Mouse Port	<i>Optional.</i> Mouse port.
Keyboard Port	<i>Optional.</i> PS2 keyboard connection.
USB Ports (2)	<i>Optional.</i> USB device connection.
Serial Port	<i>Optional.</i> Serial device connection.
VGA Port	<i>Recommended.</i> Video graphics array (VGA) monitor connection.
Network Ports (2)	Network connection.

Barracuda Email Security Gateway Models 800, 900, and 1000*

Model 1000 discontinued.

* The Barracuda Email Security Gateway model 1000 is discontinued as of October, 2018.

Front Panel Models 800, 900, and 1000

The following figure illustrates the Barracuda Email Security Gateway power and disk activity indicator lights for models 800, 900, and 1000:

The following table describes the Barracuda Email Security Gateway power and disk activity indicator

lights for model 800, 900, and 1000 :

Component Name	Description
Reserved	Reserved for future use.
Network Activity (2)	Blinks green to indicate network activity.
Disk Indicator	Displays a solid green light and blinks during disk activity.
Power Indicator	Displays a solid green when the system is powered on.
Reset Button	Push for 5 seconds to reset the Barracuda Email Security Gateway.
Power Button	Push to power on the Barracuda Email Security Gateway, tap to safely reset the Barracuda Email Security Gateway.

Rear Panel Port and Connectors Models 800, 900, and 1000

The following figure illustrates the Barracuda Email Security Gateway rear panel ports and connectors for models 800, 900, and 1000

The following table describes the Barracuda Email Security Gateway models 800, 900, and 1000:
