

Federated Search

<https://campus.barracuda.com/doc/41093937/>

Use Federated Search to configure search across multiple Barracuda Message Archivers and Barracuda Cloud. This option is available in version 5.0 and higher, on Barracuda Message Archiver models 450 and higher.

Once your system is configured for Federated Search with one or more Barracuda Message Archivers or Barracuda Cloud, all search results are merged from all federated Barracuda Message Archivers into a single search interface.
