Public Cloud Hosting

https://campus.barracuda.com/doc/41096708/

The Barracuda Email Security Gateway manages all inbound and outbound email traffic to protect organizations from email-borne threats and data leaks. As a complete email management solution, organizations can encrypt messages and leverage the cloud to spool email if mail servers become unavailable. For more information about the Barracuda Email Security Gateway, see Barracuda Email Security Gateway - Overview. Cloud hosting of the Barracuda Email Security Gateway virtual machine is currently supported on:

- Amazon Web Services (AWS)
- Microsoft Azure
