Hardware and Software

Verify your server meets the [hardware and software requirements](#).

Installation Executable

Barracuda PST Enterprise is distributed as a single executable **PSTEnterprise.<version>.exe**. This can be used to install:

- The PST Enterprise administration and self service websites, client software, and the Copy Agent services
- A SQL Express instance on the PST Enterprise server if you don't wish to provision this manually, or provide an existing SQL instance for use

Upgrading

If you are upgrading from PST Enterprise to the latest release from older versions, see [Upgrading PST Enterprise](#) for more information.
