

## CC Database Tab

<https://campus.barracuda.com/doc/41115982/>

The **Database** page provides an informational overview of all ranges, clusters, boxes, servers, and services that are administered by the Barracuda NG Control Center. To access the **Database** page, click the **Database** tab in the Barracuda NG Control Center interface.

### Database Tabs

The tabs on the **Database** page display the information columns sorted by the selected criteria. Double-clicking an entry in any tab listing opens the selected object in the configuration tree of the Barracuda NG Control Center.

Range	Cluster	Box	Server	Service	Name	Description	Contact Person	Full Name	Telephone Nr.	Email Address	Disable Update	Collect Statistics	Specific Cook Settings	Specific Event Settin...	Specific Firewall Obj...
					1	Root					no	yes	yes	no	yes
					2	DOC					no	no	no	no	no
					3	Doc Lab Infrastructure					no	yes	no	no	no
					4	CloudHosting					no	yes	no	no	no
						Virtualization Platforms					no	yes	no	no	no

### Range Tab

This tab provides information concerning all ranges that are managed via the Barracuda NG Control Center. The information shown is a summary of the input that was given during creation of the ranges and is split into columns that are named according to the parameters of the **Range Configuration** (see: [How to Manage Ranges and Clusters](#)).

### Cluster Tab

This tab provides information concerning all clusters that are managed via the Barracuda NG Control Center. The information shown is a summary of the input that was given during creation of the clusters and is split into columns that are named according to the parameters of the **Cluster Configuration** (see: [How to Manage Ranges and Clusters](#)).

### Box Tab

This tab provides information concerning all boxes that are managed via the Barracuda NG Control Center. The information shown is a summary of the input that was given during creation of the boxes and is split into columns that are named according to the parameters of the **Box Configuration** (see: [How to Add a new Barracuda NG Firewall to the Control Center](#)).

## Server Tab

This tab provides information concerning all servers that are managed via the Barracuda NG Control Center. The information shown is a summary of the input that was given during creation of the servers and is split into columns that are named according to the parameters of the **Server Configuration** (see: [How to Configure Virtual Servers](#)).

## Service Tab

This tab provides information concerning all services that are managed via the Barracuda NG Control Center. The information shown is a summary of the input that was given during creation of the services and is split into columns that are named according to the parameters of the **Service Configuration** (see: [How to Configure Services](#)).
