

How to Check the IPS Security Subscription Status

<https://campus.barracuda.com/doc/41116018/>

The IPS signature database contains all signature definitions for detecting malicious network traffic.

An Energize Updates subscription is required to receive IPS security updates. For more information, see [Licensing](#).

In this article:

Check the Subscription Status

To access the IPS database, go to **CONTROL > Server**. The current **Security Subscription** status is displayed in the right pane as follows:

■ IPS - Intrusion Prevention System

| | |
|--------------------------|---|
| Status: | Licensed (Energize Update) : active |
| Last Update: | Mittwoch, 30. April 2014 |
| DB Version: | 4.414 |
| Latest DB Version: | 4.414 |
| DB Publish Date: | Mittwoch, 30. April 2014 |
| Last Check for Updates: | Mittwoch, 07. Mai 2014 |
| Status of last Download: | Success: No changes - signatures are up to date |
| Expires: | Mittwoch, 02. Jänner 2030 |
| Update | Version History Database Browser Settings |

To check the IPS security subscription status, use the following options:

- **Version History** - Click to see changes and updates to the IPS signature database.
- **Database Browser** - Browse the currently installed IPS database.
- **Settings** - Click to access the **IPS Policies** page: **CONFIGURATION > Configuration Tree > Box > Virtual Servers > your virtual server > Assigned Services > Firewall**

Online IPS Database Updates

You can perform an online update of the IPS database by using the following options:

- **Update** - Triggers an immediate update of the IPS database and offers the following selections:
 - **Check for updates** - Check for available IPS database updates and install them.
 - **Roll back to previous version** - Revert the IPS database to any previously installed version.
 - **Roll back to latest version** - Revert the IPS database to the most recently installed version.

Update files are stored in the `phion0/mcdownload/ips/files` share. CC-managed Barracuda NG Firewalls are updated by the Barracuda NG Control Center.
