

Dashboard General Page

<https://campus.barracuda.com/doc/42044609/>

The **Dashboard > General** page displays a summary of the Barracuda NG Firewall system status. To access the **General** page, open the **Dashboard** tab and click the **General** icon in the ribbon bar.

The screenshot shows the Barracuda CloudGen Firewall Dashboard General Page. The page is divided into several sections:

- APPLIANCE:**
 - Model: VM - Plattform: VMWare
 - Host Name: HQ-VF50-Single / Cluster: DocHQ / Range: 1
 - Serial Number: [REDACTED]
 - Uptime: 00:51:00
 - System Time: Wed Oct 22 08:52:26 2014 - Europe/Vienna
 - Firmware Version: 6.0.0-152
 - Control Center: 10.0.10.77
- LICENSE:**
 - License State: OK (expires 23.07.2016)
 - Activation State: Managed by Control Center
- SERVICES:**
 - Box Services: OK
 - Virtual Server: VIRT2
 - Firewall: ATDFW
 - HTTP-Proxy: ATDPRX
 - Virus-Scanner: ATDVIR
 - VPN-Service: ATDVPN
- ADMINISTRATORS LOGGED IN:**
 - root: 10.17.4.67 since 2m 34s
- STATUS:**
 - Server/Services: OK
 - Network: OK
 - License: OK
 - Admin Tasks: No Action required
 - Resources: OK
- MESSAGE BOARD:** MARK AS READ
- CURRENT OVERALL THROUGHPUT (LAST MINUTE):** A line graph showing throughput over the last minute, with values ranging from 1024 Kbps to 4 Mbps.
- RESOURCES:**
 - CPU Load: 0.14
 - Memory Usage: 23%
 - Disk Space: OK

The elements on the **General** page provide the following information if the features are configured:

Appliance

The **Appliance** element displays information about your system in the following order:

- **Model**
- **Hostname**
- **Serial Number**
- **Uptime**
- **System Time**
- **Firmware Version**

- **Box Name**

If the system is part of a high availability (HA) cluster, the following information is provided:

- **HA Secondary** - Displays the IP address of the secondary unit.

If the system is managed by a Barracuda NG Control Center, the following information is provided:

- **Control Center** - Indicates if the Barracuda NG Firewall is centrally managed by a Barracuda NG Control Center and shows the IP address.

Status

- **Server/Services** - The status of virtual servers and services running on the Barracuda NG Firewall.
- **Network** - The health status of network connections.
- **License** - The licensing status of the system.
- **Admin Tasks** - Indicates if events were generated and actions should be taken by the administrator.
- **Resources** - Shows the status of system resources.
- **VPN** - Displays the status of the VPN service, if available.

License

- **License State** - Displays the current license state.
- **Activation State** - Displays the current license activation state.

Message Board

The **Message Board** displays a daily message and indicates the current license state. It also displays the Barracuda warranty and software license agreement. To clear the message of the day, click **Mark as Read**.

Services

This element shows the status (enabled or disabled) of box and server services running on the Barracuda NG Firewall. It also provides the corresponding links to the [Server Page](#), where you can

view the status of your virtual servers and services.

Current Overall Throughput

This element provides a live view of the overall traffic handled by the system. Click the link on the top right of the section to change the time display interval.

Resources

The **Resources** element displays the following information about your system resources:

- **CPU** - Displays the system load.
- **Memory Usage** - Displays the used and available amount of RAM.
- **Disk Space** - Displays the used and available disk space.
- **System** - Displays the used and available disk space of the system partition (*root*).
- **Data** - Displays the used and available disk space of the data partition (*/phion0*).
- **ART** - Displays the used and available ART disk space.
- **Boot** - Displays the used and available Boot disk space.

Administrators Logged In

This section displays details about connected administrators.
