

How to Exclude a Test from the System Health Report

<https://campus.barracuda.com/doc/43222193/>

This article refers to the Barracuda ArchiveOne version 6.0 and higher.

You can exclude certain tests from the System Health Report, for example, warnings you know you can safely ignore in your environment. Note that test numbers display in the **Test Id** column on the System Health Report:

ArchiveOne Deployment Analyzer Results

Tests started at 06:01 on 2014-06-30 run as account 'AM
ArchiveOne System Health.

✓ - Success ⚠ - Warning ✗ - Failure ● - Skipped

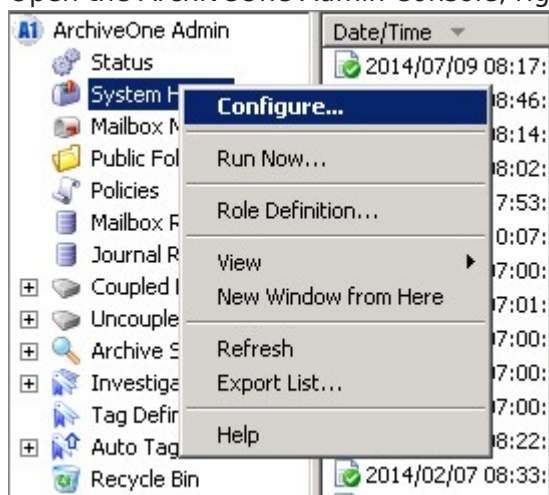

Test Id	Test Description	Result
103	Check AOneAudit website is installed	✓
104	Check AOneAudit application Pool	✓
111	AOneAudit uses anonymous authentication method	✓
125	Test ArchiveOne Audit Web Service	✓
130	Test ArchiveOne Audit SQL Database is available	✓
131	Test ArchiveOne Audit csv location is available	●

Additional Result
No

To exclude tests from the System Health Report,

1. Open the ArchiveOne Admin Console, right-click **System Health**, and click **Configure**:

- 2.
3. In the **Excluded Tests** section, enter the test numbers you want to exclude.

4. Click **OK** to save your changes.

The next time the System Health Report runs, the specified tests are excluded and marked as skipped in the report.
