

Litigation Repositories Page

<https://campus.barracuda.com/doc/43222913/>

Use the **Litigation Repositories** page to specify the base directory from which all litigation repositories, that is, repositories created as a store of messages collected by running an [Advanced Discovery Collection](#) task, are created. Ensure there is sufficient disk space available based on the expected amount of Collection. By default, Litigation Repositories are hidden from repository lists in ArchiveOne Admin, however, you can search these repositories using [Barracuda Advanced Discovery Dashboard](#) or set them as visible using the check-box on this page.
