

Link Style Page

<https://campus.barracuda.com/doc/43222916/>

Use the **Link Style** page to specify the format of message links created when messages are archived. Select from the available options:

- **Legacy style** – Plain text version of the body text is provided and there are no links to attachments; this is typically smaller but is provided for compatibility with previous releases of ArchiveOne.
- **Enhanced style** – HTML formatting of the original message is retained, and links are provided to retrieve attachments directly.
