

How to Publish Custom Forms Using Quick Link Client

<https://campus.barracuda.com/doc/46203499/>

This article refers to the Barracuda ArchiveOne version 6.0 or higher.

The archived message **A** icon in Microsoft Outlook is provided by an Outlook custom form. You can automatically publish custom forms to the Personal Forms Library using the [Quick Link Client](#).

To publish custom forms via the Quick Link Client for all users:

1. Open the ArchiveOne Admin console.
2. Right-click the **Mailbox Manager** node, and click **Properties**.
3. Click the **Client Configuration** tab, select **Enable Outlook form registration**, and then click **OK**.

To override this global setting for an individual user, right-click the mailbox in the **Mailbox Manager** node, and click **Client Configuration**.

4. Select **Override global settings**, and clear **Enable Outlook form registration**.

The next time users restart Outlook, the Quick Link Client attempts to publish the custom form to the Personal Forms Library.
