## How to Move the Search and Retrieval Website

<https://campus.barracuda.com/doc/46206090/>

### Step 1. Install the Search and Retrieval Website on the New Server

---

Install the Search & Retrieval component by following: [How to Install the Search and Retrieval Website on a Different Server](#)

### Step 2. Run the System Configuration Wizard

---

If you are installing the Search and Retrieval website on a new server with a different address, you must run the System Configuration Wizard from the ArchiveOne admin console to update the Search and Retrieval website address. Follow the process in: [How to Change the Search and Retrieval Website Location](#)

### Step 3. Update Existing Message Stubs

---

If you have modified the Search and Retrieval website address, update existing message stubs to the new address by running a Message Link Reconfiguration policy: [How to Update the Retrieval Link Address in Archived Messages](#)
