

How to Create a Static MAPI Profile Using the Profman Utility

https://campus.barracuda.com/doc/46208483/

To manually create a new MAPI Profile,

- 1. On the user workstation, download <u>Profman2</u> from the Microsoft Support site.
- 2. Run Profman2.exe.
- 3. MAPI Profile Manager 2.0 opens.
- 4. From the **New** menu, click **Profile**.
- 5. Enter a name to represent the profile, and then click **OK**. The profile is added to the left pane.
- 6. Click the profile name, and from the **New** menu, click **Service**.
- 7. In the Add Service dialog box, click MSEMS, and then click OK.
- 8. In the **Microsoft Exchange Server** dialog box, click the **General** tab, and enter the name of the Exchange server, for example, **EXCHANGE01**.
- 9. Verify the currently logged on user account name displays in the **Mailbox** field; click **Check Name** to ensure the account name resolves with the entered Exchange server name.
- 10. Click **OK** to save the profile configuration, and close MAPI Profile Manager 2.0.
