

Backups and Recovery

<https://campus.barracuda.com/doc/46209529/>

To back up and restore configurations for the Barracuda NextGen Firewall F-Series or the Barracuda NextGen Control Center, a Portable Archive (PAR) file containing all configuration settings is used.

The following items are backed up in PAR files:

- Configuration data
- Licenses
- CC global admin accounts (only on CC)
- X.509 certificates from the CC PKI (only on CC)
- Revision Control System data (only on CC)

The following items are NOT backed up and must be backed up separately:

- Log files of the Barracuda NextGen Firewall F-Series and Control Center (CC)
- Statistics Data
- Eventing Database
- Spamfilter learning database
- Mail Gateway queue data
