Management Tools and Apps

https://campus.barracuda.com/doc/48202665/

Barracuda Networks offers several applications to manage and connect to the Barracuda NextGen Firewall F-Series. Download the latest releases from Barracuda Cloud Control. The following applications and apps are available:

Barracuda NextGen Admin

Barracuda NextGen Admin is a standalone Windows applications used to administer your Barracuda NextGen Firewall F-Series and Barracuda NextGen Control Centers. As NextGen Admin is backward compatible, Barracuda Networks recommends to always use the latest version.

For more information, see Barracuda NextGen Admin.

Barracuda NextGen Report Creator

The Barracuda Report Creator creates PDF reports using the statistics and logs collected by your Barracuda NextGen Firewall F-Series. Reports can be created instantly or per schedule and delivered either by email or stored on the Windows client that is running the Report Creator.

For more information, see Barracuda Report Creator.

Barracuda Network Access Client and VPN Client

Barracuda Networks offers a Windows, macOS, and Linux client to configure and establish Client-to-Site VPNs. The Network Access Client consists of the Barracuda Personal Firewall, the Barracuda Access Monitor, and the Barracuda VPN Client.

For more information, see Barracuda Network Access and VPN Client

Barracuda F-Series Install

Barracuda F-Series Install allows you to create USB flash drives for re-installation of hardware

appliances or configuration files for custom deployments of Barracuda NextGen Firewall F-Series or NextGen Control Center virtual machines.

For more information, see [How to Recover a NextGen F-Series Firewall or Control Center Appliance with a USB Flash Drive](#) or [How to Deploy a NextGen F-Series Vx using F-Series Install on a VMware Hypervisor](#).

Firewall Authentication Client

So that users do not have to log in every time they start their computer, you can use the Authentication Client for automated login. This utility is available for Microsoft Windows and is started automatically when configured. The Authentication Client keeps the user logged in as long as the application is running in the background.

For more information, see [Authentication Client](#).

Barracuda NextGen Remote for iOS

Barracuda NextGen Remote allows you to administer complete administrative tasks from an App on your iOS device.

For more information, see [Barracuda NextGen Remote](#)
