
Host and Forwarding Rules Page

<https://campus.barracuda.com/doc/48202822/>

Host and Forwarding rules are used to manage traffic going through the Barracuda NextGen Firewall F-Series. The **Host / Forwarding Rules** pages provide a read-only view of the rule set.

Host Rules Page

The **FIREWALL > Host Rules** page provides a read-only view of the Host Firewall rule set together with the configuration menu that is available for Host Firewall rules. Be aware that all information displayed in this tab is purely informational. To edit and create rules, you must access the **Host Firewall Rules** configuration page. For more information, see [Firewall Rule List Interface and Icons](#).

Forwarding Rules Page

The **FIREWALL > Forwarding Rules** page provides a read-only view of the Forwarding Firewall rule set together with the configuration menu that is available for Forwarding Firewall rules. Be aware that all information displayed in this tab is purely informational. To edit and create rules, you must access the **Forwarding Rules** configuration page. For more information, see [Firewall Rule List Interface and Icons](#).
