

Sessions Page

<https://campus.barracuda.com/doc/48203121/>

On the **Sessions** page, you can view a list of active sessions on the Barracuda NextGen Firewall F-Series. To access the **Sessions** page, open the **CONTROL** tab and click the **Sessions** icon in the ribbon bar.

Information Display

19143	firewall		10.17.4....	86 m	24 s	root	
13481	firewall		10.17.4....	25 m	25 m	-	
5784	virscan	ATDVIR	10.17.4....	42 m	24 s	root	

Information for each session is divided into the following columns:

- **PID** - The process ID (PID).
- **Type** - The service type. (The type of service is also indicated by an icon next to the PID.)
- **Service** - The service name.
- **Peer** - The IP address from where the session was started.
- **Start** - The period that has passed since the session has started.
- **Idle** - The length of time that the session has been idle.
- **Admin** - The name of the administrative account that has logged into the session.

You can terminate a session in this list by right-clicking it and selecting **Kill Session**.
