

How to Change Control Center Credentials for Non-Root Admins

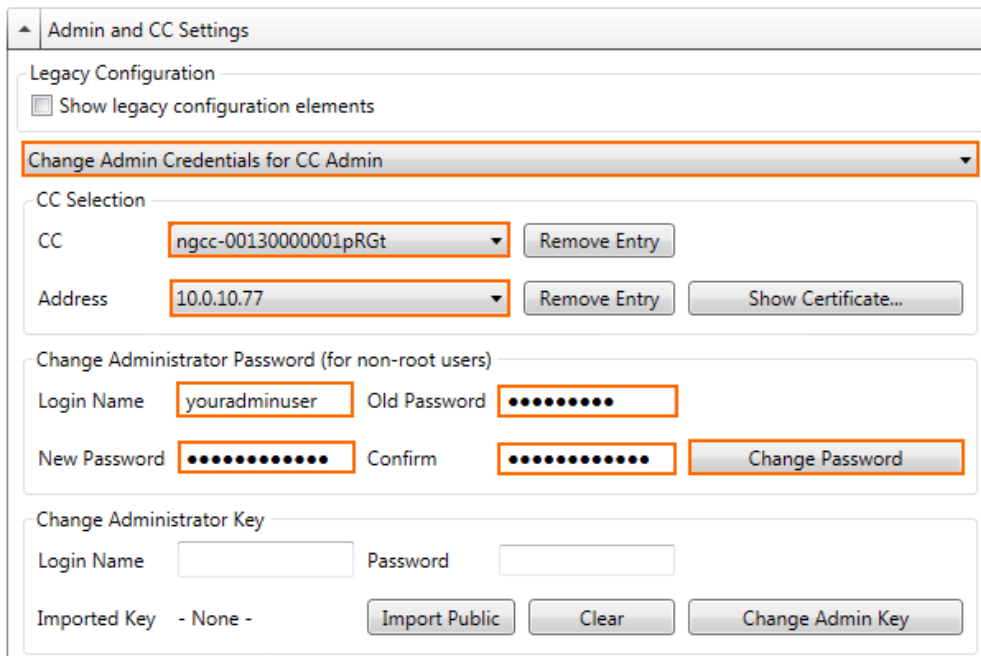

<https://campus.barracuda.com/doc/48203248/>

In the Barracuda NextGen Admin settings, you can configure the password and key for non-root admins of a Control Center.

Change password for non-root admins

Change the password used to authenticate when connecting to a Control Center

1. In the top left of NextGen Admin, click **OPTIONS** and select **Settings**.
2. Expand **Admin and CC Settings**.
3. Click the list below the **Admin and CC Settings** and select **Change Admin Credentials for CC Admin**.
4. In the **CC Selection** section, select the Control Center from the **CC** drop-down list.
5. Select the Control Center IP address from the **Address** drop-down list.
6. In the **Change Administrator Password** section, enter:
 - o **Login Name**
 - o **Old Password**
 - o **New Password** and **Confirm**

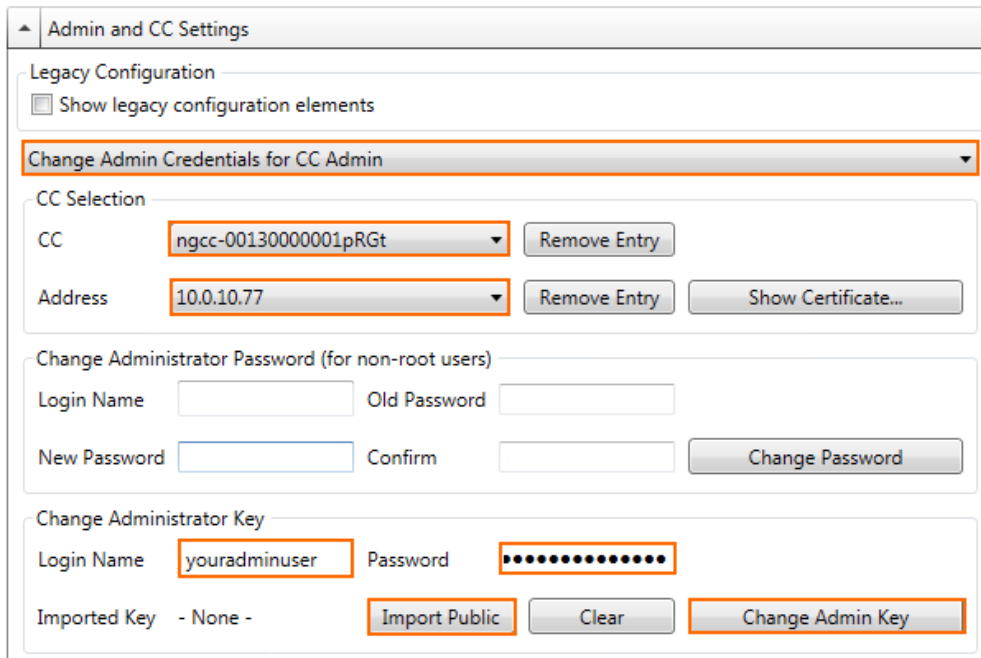

7. Click **Change Password**.

Change administrator key for non-root admins

Change the client certificate used to authenticate when connecting to a Control Center.

1. In the top left of NextGen Admin, click **OPTIONS** and select **Settings**.
2. Expand **Admin and CC Settings**.
3. Click the list below the **Admin and CC Settings** and select **Change Admin Credentials for CC Admin**.
4. In the **CC Selection** section, select the Control Center from the **CC** drop-down list.
5. Select the Control Center IP address from the **Address** drop-down list.
6. In the **Change Administrator Key** section, enter the **Login Name** and **Password**.
7. Click **Import Public** and upload the new certificate.
