

Multiple x86-Based File Servers and File Agent Installation

https://campus.barracuda.com/doc/49053815/

This section refers to the Barracuda ArchiveOne for Files version 7.2.0 and higher.

Use this installation if you have multiple x86-based file servers and wish to install Barracuda ArchiveOne for Files on one of the x86-based file servers. In this installation, the Agent is installed on one of the x86-based file servers:

11111 •• 11111 ••	·····	11111 ••
x86 File Server/ File Agent	x86 File Server	x86 File Server

For other installation options, see <u>ArchiveOne for Files Installation Options</u>.

Install Barracuda ArchiveOne for Files Components

Complete the following steps on *each* x86-based file server in your environment (except where noted).

1. Log in to the Archive Server as the administrator, and run **ArchiveOneForFiles.exe**; the installation wizard displays:

HArchive One for Files - Install	IShield Wizard
	Welcome to the InstallShield Wizard for Archive One for Files
	The InstallShield(R) Wizard will install Archive One for Files on your computer. To continue, click Next.
	WARNING: This program is protected by copyright law and international treaties.
	< Back Next > Cancel

2. Click Next. Read and accept the License Agreement:

Harchive One for Files - InstallShield Wizard
License Agreement Please read the following license agreement carefully.
IMPORTANT - READ CARFULLY . By installing this software you agree to be bound by the terms of this C2C License agreement. If you do not agree to the terms of this Agreement, do not install the software and promptly return the package to the place you obtained it for a full refund.
