

Multiple x86-Based File Servers with Dedicated Archive Server

https://campus.barracuda.com/doc/49053826/

This section refers to the Barracuda ArchiveOne for Files version 7.2.0 and higher.

Use this installation if you have multiple x86-based file servers and wish to install the Agent on a separate Archive Server:

For other installation options, see <u>ArchiveOne for Files Installation Options</u>.

Step 1. Install Main Application

Complete the following steps on *each* file server in your environment.

1. Log in to the Archive Server as the administrator, and run **ArchiveOneForFiles.exe**; the installation wizard displays:

🛃 Archive One for Files - Instal	IShield Wizard	
	Welcome to the InstallShield Wizard for Archive One for Files	
	The InstallShield(R) Wizard will install Archive One for Files on your computer. To continue, click Next.	
	WARNING: This program is protected by copyright law and international treaties.
