

Multiple x64-Based File Servers and File Agent Installation

https://campus.barracuda.com/doc/49053960/

This section refers to the Barracuda ArchiveOne for Files version 7.2.0 and higher.

Use this installation if you have multiple x64-based file servers and wish to install Barracuda ArchiveOne for Files on those x64-based file servers. In this installation, the Agent is installed on one of the x64-based file servers:

11111 ••		
x64 File Server/ File Agent	x64 File Server	x64 File Server

For other installation options, see <u>ArchiveOne for Files Installation Options</u>.

Step 1. Install Main Application

Complete the following steps on *each* x64-based file server in your environment.

1. Log in to the Archive Server as the administrator, and run **ArchiveOneForFiles.exe**; the installation wizard displays:

P Archive One for Files - InstallShield Wizard			
	Welcome to the InstallShield Wizard for Archive One for Files		
	The InstallShield(R) Wizard will install Archive One for Files on your computer. To continue, click Next.		
	WARNING: This program is protected by copyright law and international treaties.		
	< Back Next > Cancel		

2. Click Next. Read and accept the License Agreement:
