

Reporting

<https://campus.barracuda.com/doc/49054099/>

The **BASIC > Reports** page allows you to configure and generate reports of various types, based on all logged information. You can either generate a one-time report or configure the Barracuda Load Balancer ADC to automatically generate the reports on a daily, weekly, or monthly basis. Reports can be emailed to specific email addresses or sent to an FTP server.

The Barracuda Load Balancer ADC reports are classified into following groups:

- [Traffic Reports](#)
- [Security](#)
- [PCI DSS Reports](#)
- [Configuration Summary Reports](#)
- [Administration/Audit Reports](#)

How to Filter a Report

You can apply a filter to the *Security* reports and limit a report to specific data. For example, the **Attacks By Service** report in the **Security** section displays the services that have been recently attacked. You can further filter these results to examine specific types of attacks by applying the following filter:

1. Go to the **BASIC > Reports** page.
2. In the **Report Options** section, click **Show Advanced Options**.
3. For the **Security Filter** options, select **Attack Type** and then select the type of security attack.
4. Scroll down to the **Security** section, select **Attacks By Service** and then click **Show Report**.

How to Schedule a Report

Complete the following steps to schedule a report:

1. Go to the **BASIC > Reports** page.
2. (Optional) In the **Report Options** section, click **Show Advanced Options** and configure the **Security Filter**, **Traffic Filter**, and **Top Count** settings.
3. Select the check box(es) next to the report type(s) under the report group (**Client Traffic Reports**, **Service Traffic Reports**, **Security**, **Server Traffic Reports**, **PCI DSS Reports**, **Config Summary**, and **Administration/Audit Reports**).
4. In the **Schedule Report** section, specify the following:
 - **Report Name** - Name for the report
 - **Generate Report As** - Format for the report (**HTML** or **PDF**)

- **Delivery Options** - How you want the report to be delivered (**Email** or **FTP**)
- **Email ID(s)** - Specify who receives the reports
- **Frequency** - How frequently you want the report to be generated (**Once, Daily, Weekly, or Monthly**)

5. Click **Apply**.

How to Delete a Scheduled Report

Complete the following steps to delete a scheduled report:

1. Go to the **BASIC > Reports** page.
2. Scroll to the bottom of the page and click **Delete** next to the report you want to remove.
