What's New in v5.7

In this release there are the following new features:

- A new software user interface. [See Backup and Restore Interface v5.7](#)
- Support for VMware vSphere 6.5 and Microsoft Windows 2016.
- Support for Microsoft Windows Hyper-V Offline Mode Backups.

For the v5.7 release notes, [click here](#).

See how to create a backup using the new v5.7 interface.

See how to restore a backup using the new v5.7 interface.

See how to delete data using the new v5.7 interface.

Initial On-boarding - Getting started

We recommend that before you start creating client accounts and backing up data, you look at the on-boarding videos before getting started with creating your backups. Click [here](#) to start your on-boarding with Intronis MSP Solutions.

User Guides

There are several new user guides to help you with the Intronis platform. To learn about the new portal interface take a look at the New Backup and Restore Interface User Guide.

If you use any PSA tools then you will want to take a look at ConnectWise Integration Guide, or the Autotask Integration Guide.

We have also updated the REST API Reference document.
