

Overview

<https://campus.barracuda.com/doc/51184822/>

ECHOplatform is where the Intronis Backup resides. Here you can manage all of your customers, and easily expand your client base. With the latest version, ECHOplatform will now allow partners more efficient access to the growing solution-set. For those partners that use Barracuda Backup Appliances, Essentials and Email Security products, ECHOplatform is where you will provision and activate these.

ECHOplatform can easily be tailored as your own. As it is fully brand-able, you get to include your company name and logo. You can even customize the colors that are displayed, making it truly your own portal.

Where to Start

For information on how to get started in the ECHOplatform portal, go to [Getting Started with ECHOplatform](#).
