

Web Interface

<https://campus.barracuda.com/doc/51189897/>

For more information, see the latest [Cloud-to-Cloud Backup Version 3](#).

This section describes each page in the Barracuda Cloud-to-Cloud Backup web interface. After activating Barracuda Cloud-to-Cloud Backup, get familiar with the product user interface.

In this Section

The screenshot shows the Barracuda Cloud Control web interface. The top navigation bar includes links for Status, Backup, Restore, Reports, System, and Admin. The left sidebar contains a search bar and a list of navigation items: Home, Backup (4), Cloud-to-Cloud (1), Office 365 Backups (3), Main (3), Development Backup (ARB), HQ Backup (CAH), Receiver Vx (ATL), Email Security, Archiver, Web Security, Vulnerability Manager, Mobile Devices, and Appliance Control (10). The main content area displays the Status page, which includes a section for Backup Activity with two bar charts: Backup Items Added and Backup Data Added. The Backup Items Added chart shows a peak in items added around 2-13. The Backup Data Added chart shows a peak in data added around 2-13. Below the charts is a Storage section showing Raw Data (44.41 GB) and Items (1,078,100). Annotations with arrows point to various parts of the interface: 'Status displays cloud storage backup activity' points to the Status page; 'Access Cloud-to-Cloud Backup' points to the Cloud-to-Cloud link in the sidebar; 'Restore data from Barracuda Cloud Storage' points to the Restore link in the top navigation; 'Configure Office 365 data sources' points to the Office 365 Backups link in the sidebar; 'View backup, restore, and audit log reports' points to the Reports link in the top navigation; 'Set name to identify Barracuda Cloud Backup and set time zone' points to the Admin link in the top navigation; 'Configure users, set up notifications, manage display groups, access documentation' points to the Admin link in the top navigation; 'Access user community' points to the Community link in the top navigation; 'Contact support' points to the Support link in the top navigation; and 'Administer accounts, update profile, select locale, or sign out' points to the user profile dropdown menu in the top navigation.

Annotations:

- Status displays cloud storage backup activity
- Access Cloud-to-Cloud Backup
- Restore data from Barracuda Cloud Storage
- Configure Office 365 data sources
- View backup, restore, and audit log reports
- Set name to identify Barracuda Cloud Backup and set time zone
- Configure users, set up notifications, manage display groups, access documentation
- Access user community
- Contact support
- Administer accounts, update profile, select locale, or sign out
