
How to Manually Install Updates via NextGen Admin

<https://campus.barracuda.com/doc/53248244/>

If you are updating a firewall or Control Center that does not have direct Internet access to download updates and hotfixes from the Barracuda Download Portal, use the browser on the client running NextGen Admin to download the packages from the Barracuda download portal. You can then upload and install the update packages manually with the **Install Update** feature in NextGen Admin.

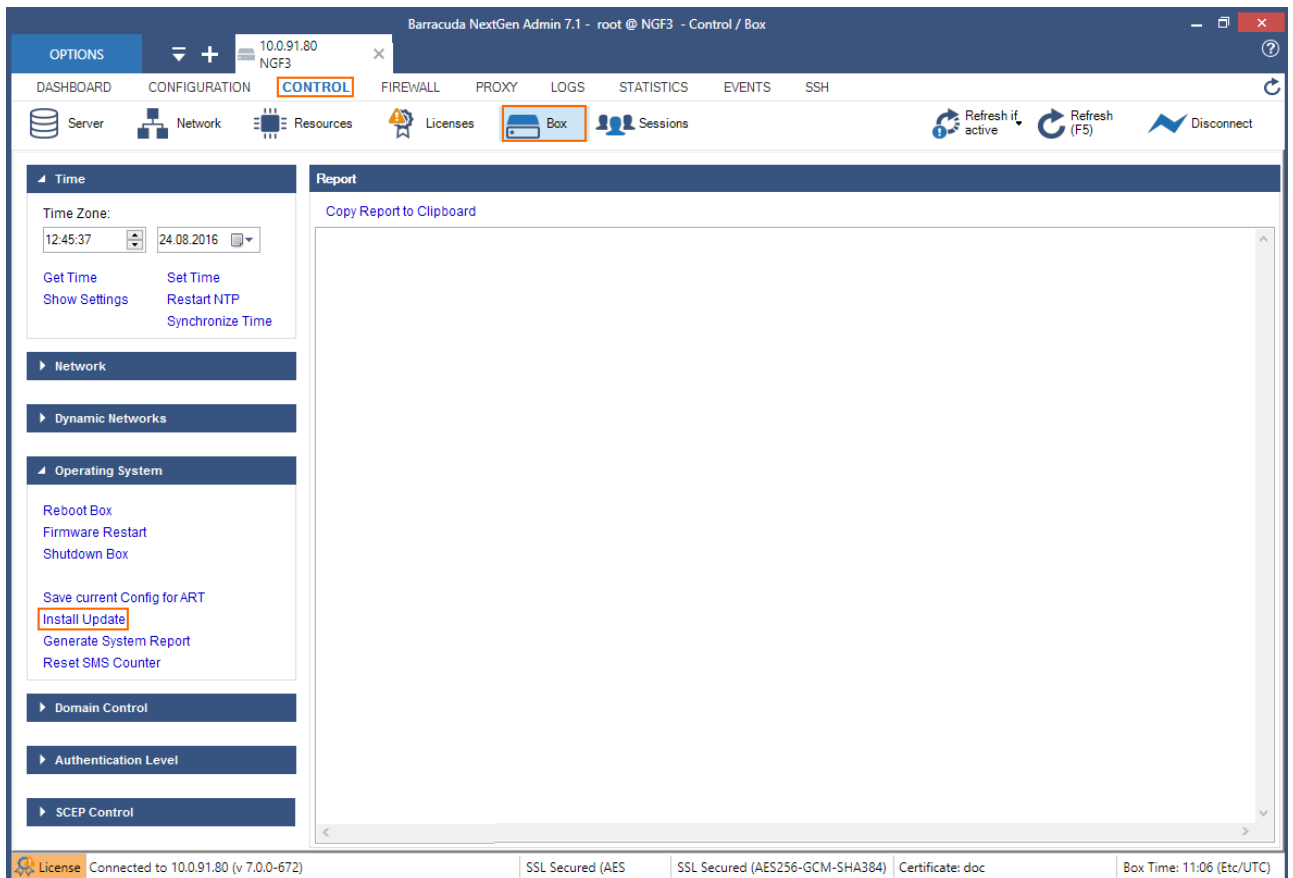

Step 1. Download the Update from the Barracuda Download Portal

Go to the [Barracuda download portal](#) and download the update or hotfix. For more information, see [How to Download Applications, Updates, and Hotfixes](#).

Step 2. Install the Update with NextGen Admin

Upload and activate the update using NextGen Admin.

1. Go to **CONTROL > Box**.
2. In the left menu, expand the **Operating System** section and click **Install Update**.

3. Select the update file and click **Open**.

Update in progress. Do not turn off your firewall.

Uploading update.GWAY-7.0.1-056.nightbuild.tgz ...

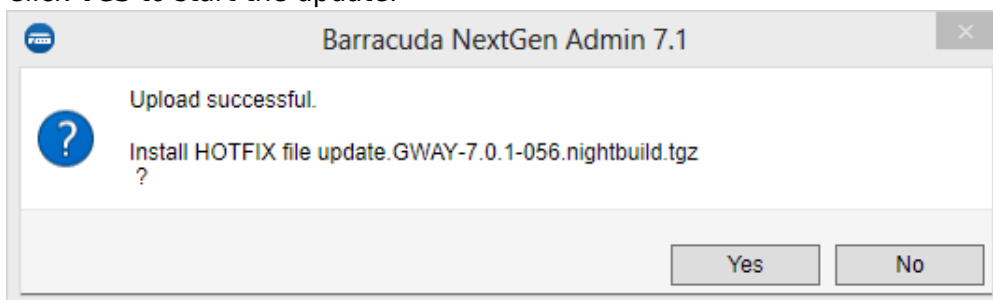

262008 KB of 619677 KB (42.3%) remaining about 1 min

Install update after upload.

4. Click **Yes** to start the update.

5. Wait for the update to finish.

Update in progress. Do not turn off your firewall.

Installing update.GWAY-7.0.1-056.nightbuild.tgz ...

Your unit reboots after the update is finished.
