

CC CONTROL Tab

<https://campus.barracuda.com/doc/53248914/>

The Barracuda NextGen Control Center **CONTROL** tab provides, among other things, real-time information about all NextGen Firewall F-Series gateways the Control Center administers. To access it, click **CONTROL** in the service bar.

CONTROL Tab Sections

The ribbon bar under the **CONTROL** tab contains a range of selectable icons for process handling and system actualization:

- **Status Map** - On the **Status Map** page, you can control and monitor ranges, clusters, and boxes that are managed by the NextGen Control Center.
- **Geo Maps** - The **Geo Maps** page lets you add frequently used NextGen Firewall F-Series appliances and tunnels to be displayed in a geographic map interface. From this page, you can also access network information and routing tables.
- **Configuration/File Updates** - The pages displayed under these tabs provide an update status overview of all available NextGen Firewall F-Series gateways, including a detailed view of the processes that are active. From here you can manage the box configuration changes that were made on the NextGen Control Center and send updates to the F-Series units.
- **Sessions** - On the **Sessions** page, you can access information about the sessions of your NextGen Firewall F-Series gateways.
- **Barracuda Activation** - The **Barracuda Activation** page provides information about the license activation status of managed NextGen Firewall F-Series gateways.
- **Pool Licenses** - The **Pool Licenses** page lets you manage licenses that are active and available for managed NextGen Firewall F-Series gateways.
- **Statistics Collection** - The **Statistics Collection** page provides information about collected statistics from your NextGen Firewall F-Series gateways.
- **Remote Execution** - On the **Remote Execution** page, you can execute non-recurring tasks, such as removing unwanted files or terminating processes on your NextGen Firewall F-Series boxes.
- **Scanner Versions** - The **Scanner Versions** page provides detailed information about the currently active Virus Scanner engine and Virus Scanner patterns.
- **Firmware Update** - On the **Firmware Update** page, you can execute software updates on administered NextGen Firewall F-Series boxes.
