

Resolve the "EWS connection error" for Specific Users in Message-Level Backup

<https://campus.barracuda.com/doc/54266949/>

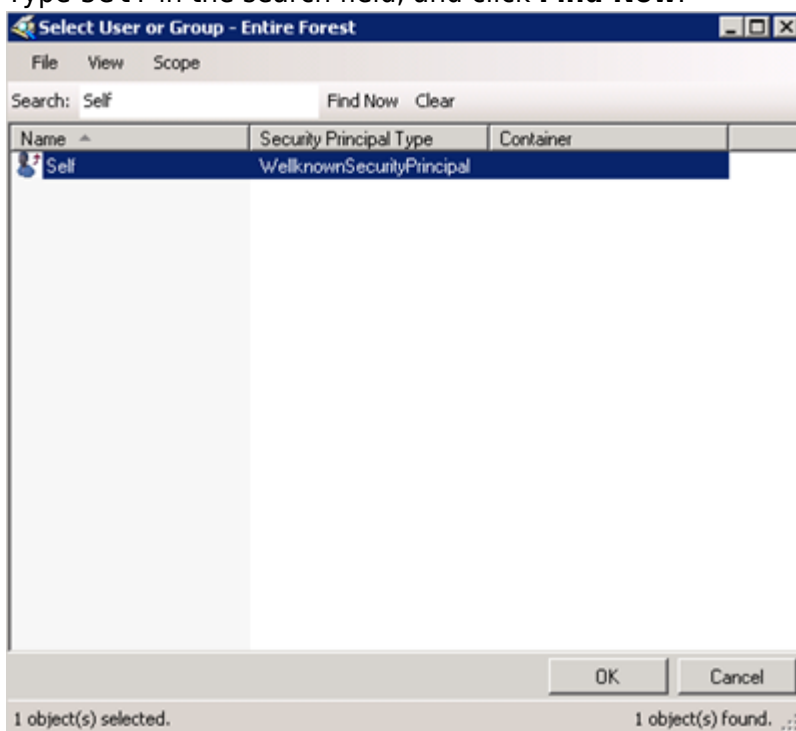

This article applies to Microsoft Exchange 2010 Message-Level backup.

When the **NT AUTHORITY/SELF** permission is removed from a user, 'EWS connection error' is generated in an Exchange 2010 Message-Level backup:

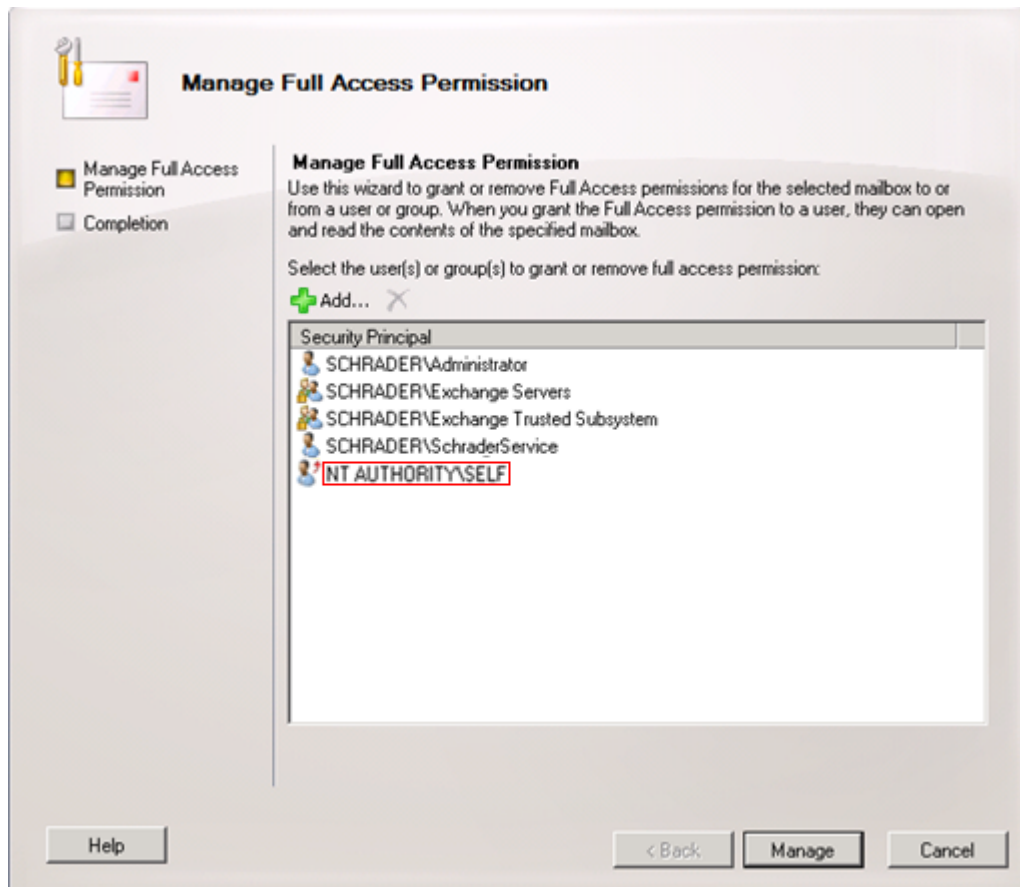

To resolve this error:

1. Log in to the Exchange server, and open the Exchange Management Console (EMC).
2. Expand **Recipient Configuration**, and click **Mailbox**.
3. Navigate to and right-click the user, and click **Manage Full access Permission**.
4. Verify that the **NT AUTHORITY/SELF** permission is missing from the list, and then click **Add**.
5. Type **self** in the search field, and click **Find Now**:

6. Click **OK**. The permission is added to the list:

7. Click **Manage**, and then click **Finish** to update the user permissions.
