

How to Connect Your Barracuda Networks Products to Barracuda Cloud Control

<https://campus.barracuda.com/doc/69960182/>

Before a user can connect Barracuda Networks Products to Barracuda Cloud Control, the account administrator must enable **Appliance Control** under **Product Entitlements** on the **Account > Users** page for the selected user.

- Only users that are Account Admins can connect products to Barracuda Cloud Control. An Account Admin has Barracuda Cloud Control privileges for User Management.
- Your Barracuda device can connect with only one Barracuda Cloud Control account at a time. Make sure your Barracuda device can reach the internet to be able to connect to Barracuda Appliance Control. If you are using Barracuda NextGen Firewall X-Series, use the **BASIC > Cloud Control** page.

You can connect one or more Barracuda Networks products to Barracuda Cloud Control by doing the following:

1. Go to <https://login.barracudanetworks.com/>, enter your login and password details, and click **Login**.
2. Click **Appliance Control** in the left pane. The **Dashboard** page displays, including a message indicating that no products have been connected.
3. In another browser window, log into the product you want to connect to Barracuda Cloud Control. From the product **ADVANCED > Firmware Upgrade** page, check to make sure you have the latest firmware installed on the product. If not, download and install it before proceeding.
4. From the **ADVANCED > Cloud Control** page in the product, enter your Barracuda Cloud Control Account Admin username and password, click **Yes** to connect to Barracuda Cloud Control, and click **Save**.

Notes:

Your product can connect with only *one* Barracuda Cloud Control account at a time.

If you are using Barracuda NextGen Firewall XSeries, use the **BASIC > Cloud Control** page.

5. In the Barracuda Cloud Control web interface, refresh your browser page and you should see, in the tree on the left side of the page, the number **1** immediately to the right of the newly connected Barracuda Networks product type. By default, statistics are presented for that product. Click on the product link to configure it using the web interface for that device.
