How to Modify or Delete User Groups

https://campus.barracuda.com/doc/69960201/

Modify a Group

To modify a group:

1. Log in to http://login.barracudanetworks.com/ as the account admin, click **Appliance Control** in the left pane, and then navigate to the **BASIC > Group Management** page.
2. In the **Groups** table, click **Edit Group**; the **Edit Group** page displays the group settings.
3. You can modify the following group settings:
    1. **Role** – Select the level of permissions for members of this group.
    2. **Access** – Select the devices that the members of the group can access. If the group role is set to **Account Admin**, the users in this group have access to all connected systems.
    3. **Members** – Select those users you want to include as members of the group.
4. Click **Save Changes** to update the group.

Delete a Group

To delete a group:

1. Log in to http://login.barracudanetworks.com/ as the account admin, click **Appliance Control** in the left pane, and then navigate to the **BASIC > Group Management** page.
2. In the **Groups** table, click **Delete Group** in the **Administrator Actions** column for the group you want to remove.
3. Click **OK** to confirm you want to remove the group; the web interface displays a message when the group is successfully deleted.
