

Reports on Firmware

<https://campus.barracuda.com/doc/69960206/>

View firmware versions for connected Barracuda Networks appliances on the **BASIC > Reports** page.

The screenshot shows the Barracuda Cloud Control interface. The top navigation bar includes 'Community', 'Support', and a user profile 'username@myco.com'. The left sidebar contains a search bar and a menu with items like 'Home', 'Backup', 'Email Security', 'Archiver', 'Web Security', 'Vulnerability Manager', 'Mobile Devices', and 'Appliance Control' (highlighted with a '6' badge). Below 'Appliance Control' are sub-items: 'Email Security Gateway' (1), 'Next Gen Firewall X-Series' (3), 'Web Application Firewall' (1), and 'Message Archiver' (1). The main content area is titled 'BASIC' and has a sub-menu with 'Dashboard', 'Device Management', 'My Account', 'Group Management', and 'User Management'. Below this is another sub-menu with 'Audit Log', 'Reports' (selected), and 'Task Manager'. The 'Reports' section is titled 'BCS Reports' and has a 'Help' link. It contains a dropdown menu set to 'Firmware Versions Report', 'Start Date' and 'End Date' input fields, a 'Top Count' field set to '6', and a 'Chart Type' dropdown set to 'None'. A 'Show Report' button is at the bottom.

To create a report,

1. In the left panel, select **Appliance Control**.
2. Select **BASIC > Reports**.
3. In the **Top Count** field, specify how many appliances to include in the report. Other fields can remain unchanged.
4. Click **Show Report**.

The report is generated immediately and shows:

- Appliance Name
- Type of Product
- Serial Number of the appliance
- Current Version of firmware the appliance is running
- General Release – Firmware released to all customers
- Early Release – Early release of firmware, released to a specific subset of customers before the general release, for testing purposes
