Warranty and Safety Instructions

Opening your Barracuda Networks appliance or removing its warranty label unless instructed to do so by Barracuda Networks support will void your warranty and hardware support.

Barracuda Networks Appliance Safety Instructions

Always use the power supply shipped with the appliance. To prevent damage, connect the DC plug to the appliance before plugging the power adapter into the AC outlet.

Default Port Configuration

| Port Label | OS Notation | Speed/Type | Management Port |
|------------|--------------------|-----------------------|------------------------|
| 1 | p1 | 10/100/1000 MBit RJ45 | Х |
| 2 | p2 | 10/100/1000 MBit RJ45 | |
| 3 | р3 | 10/100/1000 MBit RJ45 | |
| 4 | p4 | 10/100/1000 MBit RJ45 | |
| 5 | p5 | 10/100/1000 MBit RJ45 | |

<u>F280 Revision B</u> 1/6

| 6 | p6 | 10/100/1000 MBit RJ45 | |
|-------|----|-----------------------|--------|
| s1-s8 | S | 10/100/1000 MBit RJ45 | switch |

The CloudGen Firewall hardware appliances ship with a <u>Quick Start Guide</u>. Follow this guide to connect to your firewall. To protect your network, follow the instructions for the standard deployment.

Hardware Specifications

| Interface | | | |
|---------------------------------------------|-----------------------|--|--|
| RJ45 Ethernet NICs | 6x 1 GbE | | |
| Switch | 8-Port [1GbE] | | |
| USB 2.0 | 4 | | |
| Serial console | 1 [RJ45] | | |
| Integrated Wi-Fi (IEEE 802.11b/g/n) | Yes | | |
| System | | | |
| RAM [GB] | 4 | | |
| Mass Storage | | | |
| Туре | SSD | | |
| Size [GB] | 80 | | |
| Size, Weight, Dimensions | | | |
| Appliance weight [kg] | 2.1 | | |
| Carton weight with appliance [kg] | 4.5 | | |
| Appliance size: width x depth x height [mm] | 378 x 162 x 44 | | |
| Carton size: width x depth x height [mm] | 786 x 495 x 471 | | |
| Form factor | Compact | | |
| Hardware | | | |
| Cooling | Fan | | |
| Power supply | Single, external | | |
| L-Shape rack mount bracket | Included in packaging | | |
| Wall mount bracket | Included in packaging | | |
| Environmental | | | |
| Noise emission [db/A] | 60 | | |
| Operating temperature [°C] | 0 to +35 | | |
| Storage temperature [°C] | -20 to +70 | | |

Barracuda CloudGen Firewall

| Operating humidity (non-condensing) | 5% to 95% | | |
|-------------------------------------|-----------|--|--|
| Certifications & Compliance | | | |
| CE emissions | Yes | | |
| CE electrical safety | Yes | | |
| FCC emissions | Yes | | |
| ROHS compliant | Yes | | |
| Power & Efficiency | | | |
| Power supply type | External | | |
| Power type [AC/DC] | AC | | |
| Input rating [Volts] | 100-240 | | |
| Input frequency [Hz] | 50-60 | | |
| Auto sense | Yes | | |
| Wattage / max. power draw [W] | 45 | | |
| Max. power draw (@ 230V) [A] | 0.2 | | |
| Max. heat dissipation [W] | 27 | | |
| Max. heat dissipation [BTU] | 91 | | |
| Energy efficiency [average] | > 85% | | |

The hardware specifications list was valid at the time this manual was published. The listed components are subject to change at any time, as Barracuda Networks may change hardware components due to technological advancements. Therefore, the list may not reflect the current hardware configuration of the Barracuda Networks appliance it was delivered with.

Wall Mount Kit

This appliances is shipped with a wall mount kit. Print the <u>Barracuda CloudGen Firewall Wall Mount Jig</u> to use as a template when drilling the required holes. Do not scale the PDF when printing.

LEDs and Acoustic Signals

Your appliance is equipped with a variety of LEDs and acoustic signals. The front panel of the Barracuda CloudGen Firewall F280 B contains one power LED (blue), one disc LED (green), one status LED (red), and 4 port LEDs. On the back panel, you can see one power button LED and various port LEDs. Two acoustic signals indicate status of installation. The tables below show the different meanings of the different glowing states and acoustic signals:

<u>F280 Revision B</u> 3 / 6

| LED Color | Sta | | tus | Meaning Installation | Meaning Operation | |
|--------------------------------|------------------|--------------------------------------|--------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------|--|
| All LEDs Off | | Off | | Appliance is powered off or installation has not initialized far enough for LED control when installation is started. | Appliance is powered off. | |
| Power LED front s BLUE | ide - | de - Ste | | - | Appliance is plugged in and is on. | |
| Status LED front s RED | side - | О | ff | Installation has finished successfully. | Box is running normally. | |
| Status LED front side - RED | | Steady | | After a hotfix installation, the LED turns to red until the next reboot in case the hotfix installation failed. This feature requires firmware 7.1.3 or higher OR 7.2.2 or higher. | Appliance is halted and may be disconnected, or an error occurred preventing the appliance from entering the up state. | |
| Status LED front side - RED | | Blinking slowly (1/s interval) | | Normal installation. | Appliance is either booting, shutting down, or performing a system update. | |
| Status LED front s RED | | | ng fast terval) | Error during installation. | Appliance is in <u>ART</u> mode. | |
| Disc LED - GREEN | sc LED - GREEN B | | king | Appliance is reading or writing on storage. | Appliance is accessing the internal storage. | |
| Port LEDs - | | Left blinking | | Data transfer - Yellow (10/100 Mbps) | Port in use. | |
| GREEN/YELLOW | | Right | steady | - | Port is on. | |
| PSU LEDs - GREEN | | Steady | | PSU modules connected and running | Power supply unit is up and running. | |
| | | Off | | Power defective, standby, or shutdown | Power supply unit is off or in standby mode. | |
| Acoustic Signal | Frequ | luency | | Meaning | g | |
| Веер | | 1 time (.) | | nce is booting. | | |
| Веер | 3 times () | | | allation was completed successfully; appliance is halted for oot. After reboot, one beep will again indicate booting. | | |
| Веер | 3 times long | | Error c | during installation. | | |

LED and acoustic signals may vary between different appliance models.

Serial Console Port

<u>F280 Revision B</u> 4 / 6

Barracuda CloudGen Firewall

In order to establish a console connection to the appliance using an RJ45 serial cable, you need to configure the serial port on the terminal using the following parameters:

| Parameter | Value |
|-----------|-------|
| Baud | 19200 |
| Bits | 8 |
| Stop bit | 1 |
| Parity | None |
| Handshake | None |
