

## Creating a Workspace Using the ARM Template

<https://campus.barracuda.com/doc/73696955/>

You can use the Barracuda Web Application Firewall Log Analytics ARM template to create or modify a Log Analytics workspace. The Log Analytics workspace can be associated with a resource group that is created in any region.

The Barracuda Azure Resource Manager (ARM) template installs and configures all dashboards provided by the Barracuda Web Application Firewall in the Log Analytics workspace.

The Barracuda Web Application Firewall ARM template to create a Log Analytics Sentinel workbook is available on [GitHub](#).
