

Public Cloud Hosting

<https://campus.barracuda.com/doc/73720368/>

Barracuda Networks offers the Barracuda WAF Control Center (WCC) Vx as a cloud hosted virtual machine, allowing you to centrally manage multiple Barracuda Web Application Firewalls that can be located either in public cloud or in private networks. Cloud hosted virtualization is currently available for:

- [Barracuda WAF Control Center Deployment and Quick Start Guide for Amazon Web Services](#)
- [Deploying and Provisioning the Barracuda WAF Control Center in the New Microsoft Azure Management Portal](#)

Microsoft Azure
