Security Edition for Exchange 2013 and Newer

https://campus.barracuda.com/doc/74550036/

The articles in this section assume you are deploying the Barracuda Email Security Service *for the first time*. If you previously deployed the Barracuda Email Security Service and wish to migrate to Barracuda Essentials, contact your Barracuda sales representative.

Barracuda Essentials Email Security provides:

- Critical multi-layer security and compliance for your Exchange 2013 and newer;
- Effective protection against Spam and Phishing emails;
- Threat detection and message blocking;
- Full functionality free for 14 days.

Barracuda Email Security Service

- Specify the Barracuda Email Security Service as an *inbound mail gateway* so that Barracuda Email Security Service filters out spam and viruses, and then passes the mail on to your Exchange mail service.
- Specify the Barracuda Email Security Service as the *outbound mail gateway* so that the Barracuda Email Security Service processes the mail by filtering out spam and viruses before final delivery.

Advanced Threat Protection

- Protects against advanced malware, zero-day exploits, and targeted attacks not detected by the Barracuda Email Security Service virus scanning features.

Where to Start

- Step 1 Set Up Security Edition for Exchange 2013
