

How to Download a SharePoint Online Data Source

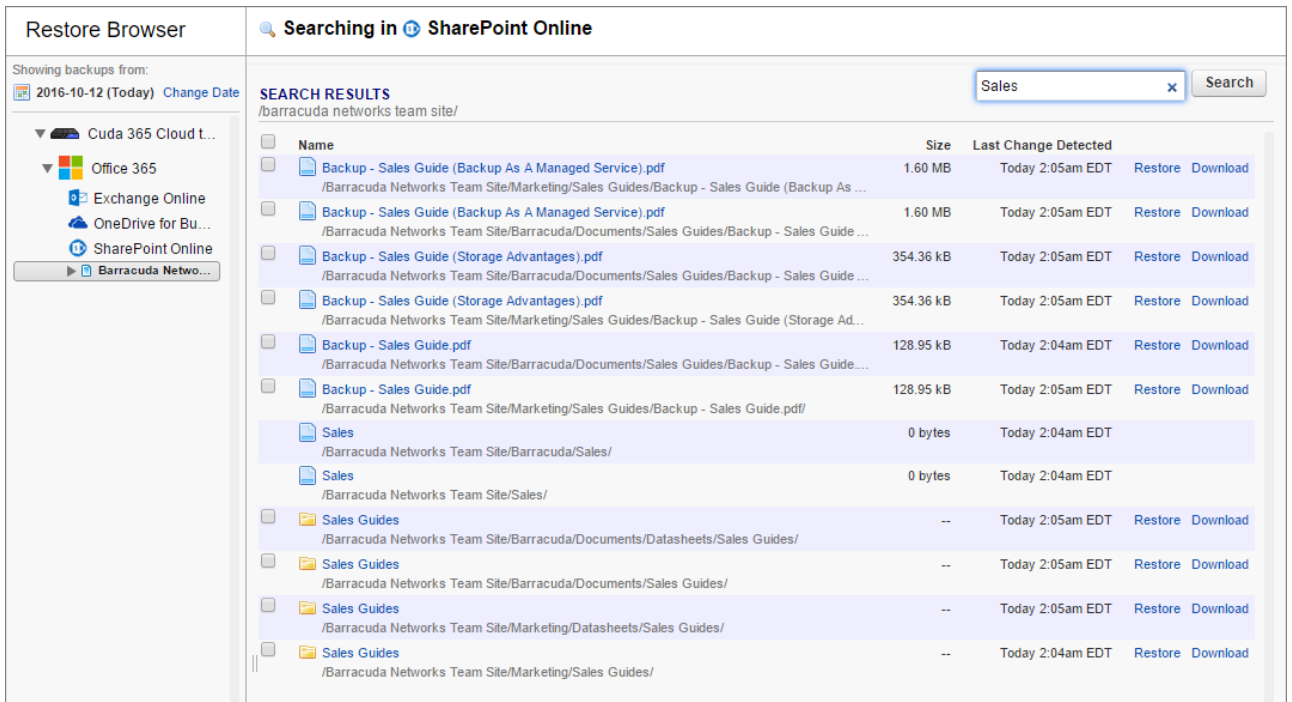

<https://campus.barracuda.com/doc/75170036/>

Use the following steps to download SharePoint Online data:

1. Log in to Barracuda Backup, and select the Cloud-to-Cloud Backup Source in the left pane.
2. Click the **Restore** tab, and then click **Restore Browser**.
3. From the **Restore Browser**, click **SharePoint Online** in the left pane, and select the data you want to download:

4. Navigate through the folder structure to locate the file or folder you want to download, or use the search field to locate the desired data:

5. The default view displays data that was present during the last backup. To find an historical revision of a file or folder, click **Change Date** in the left pane:

Restore Browser
