## Viewing Performance Statistics

<https://campus.barracuda.com/doc/75694510/>

The **Basic > Dashboard** page provides an overview of the health and performance of your Barracuda Cloud Archiving Service, as described below.

### Message Statistics

---

Statistics for all items stored in the Barracuda cloud, broken down into the following groups by hour, day, and total:

- Inbound, outbound, and internal emails
- Appointments, contacts, notes, distribution lists, and tasks
- Any other data belonging to users in your managed domains that were also sent to the Barracuda Cloud Archiving Service

### Performance Statistics

---

*(Not available to auditors)*

The Performance Statistics section displays information on the current performance of the Barracuda Cloud Archiving Service including:

- Last archived message timestamp
- Number of deduplicated messages
- Storage saved

### Storage Statistics

*(Not available to auditors)*

This section displays statistics on the amount data stored in the Barracuda cloud this hour, today (since midnight), and total (or since last reset).

- **Effective** – The "real" combined size of all stored messages. This is the actual size of the messages as they are sent to the Barracuda Cloud Archiving Service.
- **On Disk** – The actual amount of storage used.
- **Reduction** – The percentage of storage space saved by the compression mechanisms of the Barracuda Cloud Archiving Service.

## Subscription Status

*(Not available to auditors)*

This section displays the current status of your Barracuda Cloud Archiving Service including number of users and subscription expiration date.

## Email Statistics

---

The breakdown of message traffic for the last 24 hours and last 30 days. Click the **Chart content menu** () icon to download the selected chart as a **.png**, **.jpg**, or **.svg** image, or as a PDF file.
