

Manage User Accounts and Roles - Video

<https://campus.barracuda.com/doc/75694574/>

Watch this video for an overview of local user administration and LDAP integration:

The screenshot displays the Barracuda Cloud Archiving Service web interface. The top navigation bar includes the Barracuda logo, the product name 'Cloud Archiving Service', and user information 'Signed in as: Demo Guest' with a 'Sign Out' link and a language dropdown set to 'English (US)'. Below this is a secondary navigation bar with tabs for 'BASIC', 'MAIL SOURCES', 'POLICY', 'USERS', and 'ADVANCED'. The 'USERS' tab is active, showing sub-links for 'Accounts', 'User Add/Update', 'LDAP User Add/Update', and 'Client Downloads'. The 'User Add/Update' link is selected, leading to the 'USER ACCOUNT CREATE/UPDATE' form. This form contains several input fields: 'Email Address' (with a note about the welcome email status), 'User Display Name (Firstname Lastname)', 'User Aliases' (with a note to enter one alias per line), 'Password' (with a note about the desired password), and a 'Role' dropdown menu currently set to 'User'. A 'Help' link is located in the top right corner of the form area. The left sidebar of the interface lists various security and management tools: Backup, Web Security, Email Security, Archiver, Vulnerability Manager, Mobile Devices, and Appliance Control.
