

Audit Log

<https://campus.barracuda.com/doc/76939368/>

The **Audit Log** is an audit trail of all administrator activity, including logins, logouts, and changes to accounts. Use the Search text box to filter on account, user or IP address.

Example

An administrator creates a Blocked Category alert, then changes the email associated with that alert. In the Audit Log, you can see the actions taken by the administrator:

| Audit Log | | | | |
|--|------------|-------------------------------|---------------|--|
| <input type="text" value="Search by company name, user, or IP address"/> | | | | |
| TIME ▼ | ACCOUNT ▲▼ | USER ▲▼ | IP ADDRESS ▲▼ | DETAILS |
| 2018-07-23 16:03:34 | [REDACTED] | [REDACTED]@endpointshield.com | [REDACTED] | Changed subscribed emails to "[REDACTED]@barracuda.com" for "blocked_category" alert |
| 2018-07-23 16:03:33 | [REDACTED] | [REDACTED]@endpointshield.com | [REDACTED] | Created "blocked_category" alert |

From the global navigation menu at the top of the page:

- [Accounts](#) summarizes subscription/licenses, agents deployed, and list of accounts.
- [Overview](#) summarizes top blocked accounts and threat statistics.

For more product documentation, see:

- [Dashboard for BCS](#)
- [Dashboard for BCS Plus](#)
